Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Oath/Declaration

The Oath/Declaration has not been received with the instant application. Please submit the oath/declaration as required by the M.P.E.P.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1,2,7 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishida (U.S. Patent No. 6,534,789 B2).

Ishida teaches a method of manufacturing a thin film transistor matrix substrate excellent in step coverage, comprising on a flat surface of a glass substrate (1), an SiO₂ layer (2) was deposited to a thickness of about 200 nm by plasma enhanced (PE) chemical vapor depositing (CVD) at a substrate temperature of about 300°C, an amorphous silicon layer (3) was deposited to a thickness of about 50 nm by CVD. Laser annealing was performed for the amorphous silicon layer (3) to change it to a polysilicon layer (3).

Ishida does not teach a second, third or forth region being grown. However, in the absence of unobvious results, it would have been obvious to one of ordinary skill in

Art Unit: 1722

the art to continuously repeat in process, as stated and taught supra by Ishida, in order to create a plurality of regions. The motivation being that the procedure would ensure proper orientation of the instant invention.

A reference is good not only for what it teaches by direct anticipation but also for what one of ordinary skill might reasonably infer from the teachings. In re Opprecht 12 USPQ 2d 1235, 1236 (CAFC 1989); In re Bode 193 USPQ 12; In re Lamberti 192 USPQ 278; In re Bozek 163 USPQ 545, 549 (CCPA 1969); In re Van Mater 144 USPQ 421; In re Jacoby 135 USPQ 317; In re LeGrice 133 USPQ 365; In re Preda 159 USPQ 342 (CCPA 1968).

Allowable Subject Matter

4. As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

5. Claims 3-6, 8-11 and 12-18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
